Eyoum Atock Jean-Jacques Brayan

GenAI Engineer — LLM Applications · AI Agents · RAG · AI Automation

hello@jackbrayan.com jackbrayan1707@gmail.com +237 694 10 35 85 Yaoundé, Cameroun jackbrayan.com LinkedIn Facebook GitHub Hugging Face

PROFESSIONAL SUMMARY

Software engineer with 5+ years in full-stack Python development, now specialised in Generative AI: LLM-powered applications, autonomous and multi-agent systems, retrieval-augmented generation (RAG) and AI automation. I ship AI features that solve concrete business problems — lead scoring, conversational assistants, document intelligence — using both hosted LLM APIs and fully local inference (Ollama, LM Studio — Gemma, Mistral, Qwen, Kimi). Comfortable owning the full path from prompt design and evaluation to API, deployment and monitoring.

CORE SKILLS

GenAI & LLMs	Prompt engineering, RAG, vector search (pgvector), evaluation, function/tool calling, structured output, context management
Agents	Multi-agent orchestration, agent roles & tools, task planning, human-in-the-loop workflows
Local & hosted LLMs	On-prem / offline inference with Ollama & LM Studio (Gemma, Mistral, Qwen, Kimi, Llama); hosted Claude & OpenAI APIs; Hugging Face
Engineering	Python, FastAPI, Django, Flask, Streamlit, Pandas, NumPy, REST APIs, Docker, Git, CI/CD
Data	PostgreSQL, MongoDB, data cleaning, deduplication, feature preparation for ML, KoboToolbox / KoboCollect (survey data collection)

EXPERIENCE

Chief Technology Officer (Remote) — MoSCoW — **2026 – Present**

- Lead technical direction for MoSCoW, an AI studio building custom software, websites and AI-powered features (chatbots, automation, data analysis) for clients in Cameroon and abroad.
- Designed, developed and deployed the moscow.cm corporate website.
- Drove in-depth UI/UX and technical SEO for prospect.moscow.cm, an AI-powered B2B prospecting platform: Google Search Console integration, page indexing, Google Analytics & Tag Manager.

Innovation Cell Lead — NAUMUR SARL, Yaoundé — **Feb 2026 – Present**

- Lead evaluation and prototyping of Generative AI solutions (LLM assistants, document processing, automation) for internal and client use cases.
- Build AI-assisted internal tools on Python/FastAPI backed by AWS-hosted infrastructure; define prompt patterns and guardrails reused across projects.
- Supervise a small engineering team and set the technical direction for AI adoption.

Data Analyst & Web Developer — NAUMUR SARL, Yaoundé — **Oct 2025 – Jan 2026**

- Built data pipelines and dashboards, including LLM-assisted classification and summarisation of unstructured survey and business data.
- Developed and deployed web applications integrating AI-driven analytics for institutional reporting.

Tech Lead & Full-Stack Developer (Freelance) — EEUEZ Group — **Mar 2025 – Aug 2025**

- Architected e-commerce and social platforms and prototyped AI modules: a customer-support chatbot and image/ingredient recognition for a food-services product.
- Owned API design, LLM integration and deployment.

Tech Lead & Full-Stack Developer — Mubaku — **Sept 2024 – Feb 2025**

- Delivered a loan-appraisal application; introduced automated scoring logic that later informed an AI-based lead/credit scoring approach.

SELECTED AI PROJECTS

- **Wak — local multi-agent AI ecosystem.** A coordinator agent delegating to specialised agents (support, developer, tester/SEO) running on local LLMs via Ollama / LM Studio (Gemma, Mistral, Qwen, Kimi). Focus: agent roles, tool use, orchestration, offline inference.
- **DUMP — AI prospecting & outreach platform.** Pipeline from raw business records to cleaned, deduplicated, classified leads, with LLM-generated lead scoring, need detection and personalised pitches, plus human approval before contact.
- **Karaavel AI module.** Conversational assistant, event planning helper and ingredient-recognition / shopping-list generation for a multi-service super-app concept.
- **Hugging Face** — experiments published at huggingface.co/JackBrayan17.

EDUCATION

MSc, Big Data & Artificial Intelligence — Keyce Informatique & IA, Yaoundé (2024 – 2026)

BSc, Computer Engineering — IAI Cameroun (2019 – 2023)

GCE Advanced Level — Laval Bilingual School (2020) · Digital Marketing certificate — UCAC Ekounou / Taptap Send (2025)

LANGUAGES

French — fluent (native-level) | English — fluent

INTERESTS

Reading, sport, music.
