Keyce Informatique & IA,
Yaoundé

2024 - 2026 · Thesis Sept.
2026

Bachelor's — Computer Engineering

IAI Cameroon

2019 - 2023

GCE Advanced Level (A-
Level)

Profile

Results-driven full-stack software engineer specializing in AI & Big Data, with strong experience in technical leadership and scalable digital solution design. **Head of the Innovation Unit** at NAUMUR SARL, leading digital transformation, mentoring interns, managing AWS cloud infrastructure, and building strategic business software. Organizer of **EEUEZ Hackathon 2026**. Currently writing Master's thesis in AI & Big Data (defense scheduled September 2026).

Professional Experience

Head of Innovation Unit

NAUMUR SARL · naumur.com · Yaoundé, Cameroon

Feb. 2026 - Present

- Strategic management of the innovation unit: defining experimentation roadmaps and prioritizing internal and external technology projects.
- Supervision and mentoring of interns (task assignment, performance tracking, skills development).
- Managing PADESCE satisfaction surveys via [Call App Naumur](#) — coordinating call campaigns and structured data collection.
- Ongoing tech watch: evaluation and integration of AI tools (Claude, Codex, Antigravity, NotebookLLM).
- Microsoft 365 administration: user & license management, Teams channels, security policies.
- Design, coordination and development of internal and external software (business apps, web platforms).
- AWS virtual machine administration (128 GB RAM, 1 TB SSD): configuration, monitoring and security.
- Development of a mass messaging software (all networks) for advertising campaigns.
- Collection and analysis of sponsored ad data across company sites, including [Veyrys.com](#).

Data Analyst & Web Developer

NAUMUR SARL · Yaoundé, Cameroon

Oct. 2025 - Jan. 2026

- Data cleaning, consolidation and visualization (Excel / Flourish / SharePoint) for PADESCE indicators.
- Development and maintenance of the institutional website naumur.com.
- Built a web app for managing operator calls and tracking SMEs in the tax registry.
- Deployment and maintenance of [Zevaba](#) (Django) — intellectual social network on cPanel.

Tech Lead & Full-Stack Developer (Freelance)

EEUEZ Group

Mar. - Aug. 2025

- Architecture and development of [EEUEZ-Market](#) (Laravel): e-commerce platform connecting merchants, couriers and customers, with SEO integration.
- Development of [Zevaba](#) (Django): intellectual social network, cPanel deployment.
- Community management for EEUEZ-market products.

Tech Lead & Full-Stack Developer

Mubaku

Sept. 2024 - Feb. 2025

- Technical lead on [Loan Appraisal App](#) (Django): front/back contributions, CI/CD and deployment.

Walking & Jogging · Drawing
Fashion · Music
Tech Innovation

► Development of the Mubaku HighTech responsive landing page.

Freelance Web Developer
On Black Streetwear

Jul. - Aug. 2025

- Built on-black.vercel.app: showcase & online store (React/TailwindCSS), WhatsApp order integration.

★ Event & Leadership

Organizer — EEUEZ Hackathon 2026

Feb. 11, 2026

Campus des Grandes Écoles Européennes · Titi Garage

- Designed and organized the hackathon *Create, Transform and Launch: Building African Digital Solutions*.
- Coordinated speakers and thematic workshops on digital creation, transformation and tech product launches in Africa.
- Managed 5 collaborative teams: use of collaboration tools, project presentations, jury evaluation and prize ceremony.
- Digital presence: hackathon.eeuez-market.com · Instagram [@hackathon.eeuez](https://www.instagram.com/hackathon.eeuez).
